Laurels at St Joseph's

Burning the midnight oil, wad of study material, countless assessments and last minute queries were a few things the Josephites dealt with ahead of Board Examination 2023. This year, classes X and XII answered Board Exam for the first time and apparently accomplished victory.

The Josephite fraternity embraces the result of its students. The spectacular hundred percent result of classes X and XII, with a district topper in class X filled the atmosphere of St Joseph's with zest and fervour. Continuing the ritual of setting benchmark and attaining sky-touching score, the school has once again proven its excellency. St Joseph's promises to produce citizens of tomorrow who are intellectually strong and morally upright.

The school management and the faculty members pray that the students may reach the zenith of success in the path they choose to traverse.

Message From The Principal

It looks like the world got a new coat of paint. Mere expressions of words may not communicate the feelings of the heart when it is overwhelmed with unending happiness. It's a matter of pride, a moment of history frozen for ages to relive and cherish, and speak of it with ever growing happiness. The collection of vocabulary falls short to convey my happiness and justifiable pride at the astounding achievement of our assiduous students. Browsing through the pages of the Result Bulletin 2022-23 is a validation that our efforts have been well directed and ardently pursued. It goes without saying that there is a message to be read between the lines and grasped. As wisdom states- 'Rome was not built in a day'. The pinnacle of glory touched by the students has behind it the untold story of countless arduous, relentless steps to its apex. The success trail is illuminated by these persevering steps fortified by responsible guidance. Just as the king-maker is more important than the king, the support system of parents and teachers is of primary importance. A student needs strong, positive backup at all times. It can be factual, emotional, financial or psychological. But its presence should be beyond doubt. Above all, the core value of God experience should become a part of life. God's work done in God's way never lacks God's supplies. I heartily congratulate all the students, teachers and parents for living up to the milestones set by the school. Let us reaffirm our commitment to tread on the path of Excellence for all times to come. I wish them God's choicest blessings as they coddiwomple to their future.

Appearing in boards of grade 12 directly was like being thrown into a deep pool but thankfully the faculty members guided me thoroughly. I am overjoyed to become the school topper. At the end of my school journey, I can say that hardwork does pay off.

I initially took boards as a burden, but due to the support of my teachers and parents, I realised that they were a simple test of the knowledge I had acquired over the years. Cinching second place among all the streams is a dream come true.
